

MIRACLE BUILDING

To God Be The Glory

We are so grateful for you and for what God is doing. What a great time to be alive!

Three Years?

We have been in our condo for 3 years, and God told Lori that we would “be here” for that length of time. Well, three years have passed and God has moved not our home, but where we minister. All these three years we have **sought a larger building** to expand our ministry and asked people for ideas.

Little Country Church at the Edge of Town

In August we spotted a building we’d never seen close to the campus. Within a week, we had the key for this **cute little church** in the midst of college apartments and run-down rent houses. It is an old Church of God that had been used for a chi Alpha house and a few different congregations and prayer meetings in between. It is a God Thing!

Hungry For God

With the new place, we rebooted our **young adult dinner group**, showing **The Chosen Series** all over again. We have developed discussion questions from a secular, unchurched view. It has really opened doors to the gospel and a chance to listen to young adults who have not been raised in a biblical world view home.

Many, many years ago Lori had a dream for a house called: “COME AND SEE!” Now that same phrase is used in The Chosen and we’ve put it on our advertising. Thank you, Jesus!

In our tiny condo we averaged six attendees. In the new building we’ve **already doubled attendance** in the first two months, and we expect to soon be at 20. **Why is the spirit moving** in this place? It has had prayer over it for many years, often weekly. We felt God’s presence the first time we entered.

Lori is teaching the Biblical Roots of the Constitution on Tuesday nights. **The Institute on the Constitution** course is halfway through its first run. With five faithful adult students, it's been really good and informative. This is our first venture into teaching adults our age on a weekly basis. We've updated the curriculum to reflect the current state of our world. The class is a great way to draw pre-Christians to learn the biblical roots of our nation. We will run it again in January. Pray we can attract younger people to this class.

We just celebrated **our 40th Anniversary** on October 23. We met doing ministry on the campus of Stephen F. Austin in Nacogdoches, TX. Forty years later, our bodies are older but here we are, once again on a college campus. It is great to do what you love and so good of God to let us keep going!

continued from page 1

It's a **great mix of young adults**: local working kids and college students. Half the group are Chico State baseball players and they eat like three normal adults each. The baseball team has a cheer they do in the dugout, "These dogs like to eat! Bark, bark, bark!" They do, but their hearts are hungry too for the person of Jesus. Many don't even own Bibles.

Please pray with us for this and how you can be involved. It is running \$100 a week to feed these guys and they continue to invite their friends! Will you **adopt a young adult** and help us proclaim the gospel? Your monthly support is needed. Each \$10 tax deductible donation gives a hungry heart a home-cooked meal and puts them in front of the Gospel. How many can you feed?

YES! I WANT TO HELP FEED THOSE HUNGRY FOR JESUS!

\$50 Donation

\$100 Donation
